

## CORPORATE OVERVIEW

### Helping Customers Navigate the IT Landscape

- 30 Years of Guidance and Innovation -

Experience seamless IT management with Harbor Networks, where cutting-edge technology meets personalized service. Let us navigate the complexities of your IT infrastructure, so you can focus on what matters most -- growing your business.

## Who We Are

Harbor Networks is a northeast-based leader in managed IT, network, voice, and security services solutions. We lead with a consultative approach to customer communications and high-touch white-glove services..

We partner with leading resellers and solutions providers worldwide. Our value is pairing the right technology fit for each customer with the right people.

## Why Choose Us

**It's all in our approach:**

### Consult

Our team of solutions architects consults with you to determine your specific business requirements, then crafts a design that meets your needs.

### Integrate

Our project team coordinates the implementation of your design and closely aligns with your internal stakeholders to bring your solution to life.

### Manage

Our NOC/SOC ensures Day 2 success by monitoring and maintaining your solution 24x7x365 for optimal performance and ongoing adaptation to your ever-changing business.
